About CACE

CAC Enterprise Limited (CACE) provides a range of services to existing brands with the joint goal of expanding product sales into Amazon markets where the brand currently has no presence or awareness

CACE is actively looking to partner with brands which are successful in their home Amazon marketplace and which we believe could replicate this success in other Amazon marketplaces across the globe.

Our aim is to work with brands to promote their products, build brand awareness and establish long-term partnerships that will be mutually beneficial for years to come.

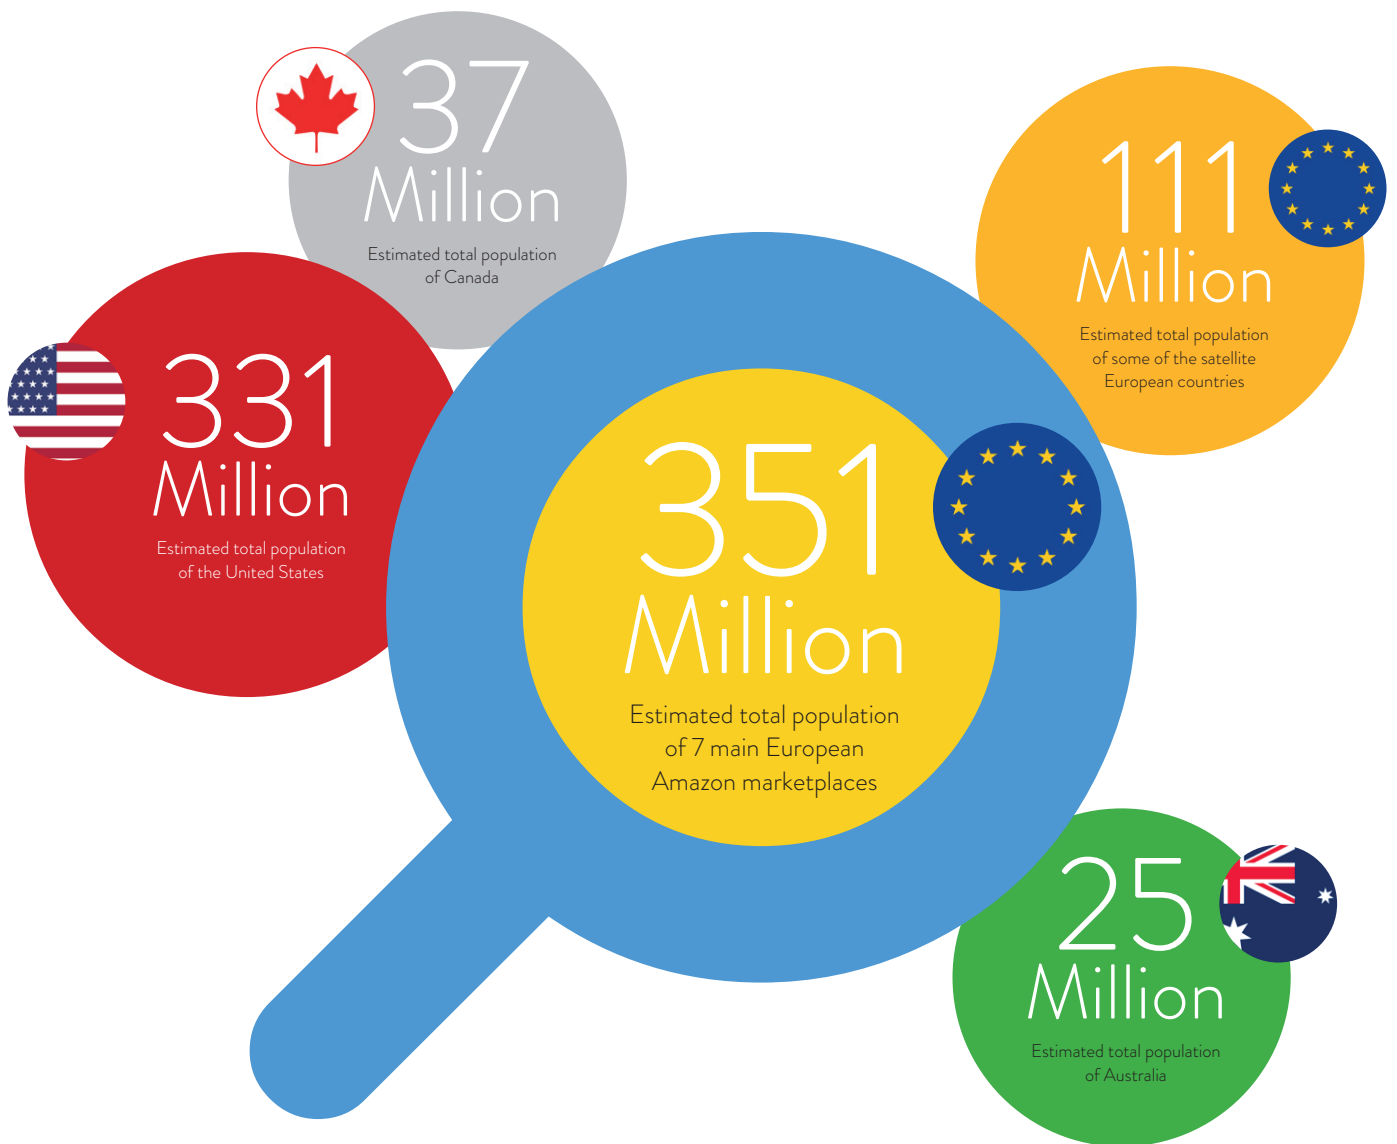

In addition, CACE also offers a range of marketing services for clients who need support in launching brands and products in their home Amazon marketplace for the first time or who simply need additional help and resources to manage an existing Amazon account.

“Using our trusted logistics partner, we can bring your brand and products to new markets by harnessing our extensive knowledge and experience of working with Amazon.”

Craig Crowhurst
Managing Director CAC Enterprise
